

The Harm Reduction Service (HRS) addresses to drug consumers and offers some information about dangers and risks of drug consumption.

The HRS sustains drug consumers so that they can take care about themselves changing their risky behaviours and eventually put them in contact with some specialized services.

We carry out our activity directly in the aggregation and meeting places of drug consumers through the Street Unity, which periodically reaches some zones of Mestre, and inside the drop in located in via Giustizia 21/b.

There are no age limits, and it is no necessary the Italian citizenship to access to our service. The Harm Reduction Service is a service

that guarantees the privacy, and it is free. It offers:

- Information about damage due to drug consumption
- Information about social, legal and sanitary themes and about the corresponding services located in the area
- Delivery of sterile material as syringes, distilled water, sterile towels, condoms, needles, etc.
- Withdrawal of used syringes
- Availability to carry out talks
- Availability to contact social services and health services and eventually to take the interested person
- Showers and bathrooms (only in the drop in)
- Laundry room (only in the Drop In)

If you want to call the operators just dial **3481521787** or **0412746068**. If you hear the answering machine leave a message, we will call you back as soon as possible.
